AXIORY

WELCOME PACKAGE PROMOTION

TERMS & CONDITIONS

PLEASE READ THE FOLLOWING TERMS AND CONDITIONS ("TERMS") CAREFULLY BEFORE PARTICIPATING IN THE WELCOME PACKAGE PROMOTION ("PROMOTION"). PARTICIPATION CONSTITUTES YOUR ACCEPTANCE OF THESE TERMS. THESE TERMS SHOULD BE READ IN CONJUNCTION WITH THE TERMS & CONDITIONS ON INVESTMENT SERVICES AND OUR PRIVACY POLICY.

If you have any questions about these Terms or on how the Promotion works, please feel free to contact us anytime.

1. PROMOTION OVERVIEW

The Promotion is organized by AXIORY GLOBAL LTD and TRADIT LTD (together hereinafter referred to as "AXIORY") and will run from **25th February 2026 (00:00 GMT+9) until 31st December 2026 (23:59 GMT+9)** (the "Promotion Period"). The Promotion is a structured 'Welcome Package' designed for new clients and consists of a no-deposit-bonus ("NDB") of USD 100 and a first deposit bonus ("FDB") of 100% of the first deposit amount, capped at USD 645, subject to these Terms.

2. ELIGIBILITY CRITERIA

2.1 The Promotion is exclusive to new clients aged 18 years or over who:

- Have received an official invitation via AXIORY's communication channels;
- Have not made their first deposit prior to the start of the Promotion Period; and
- Have agreed to these Terms.

2.2 The Promotion is available only on MT4 and MT5 trading accounts. Alpha, Islamic, and cTrader account types are excluded.

2.3 Only one NDB is granted per client. Multiple accounts held by the same client shall not entitle the client to multiple NDBs.

3. PROMOTION RULES

3.1 The Promotion will run until **31st December 2026 (23:59 GMT+9)** and the credit will expire (removed from the account) on **31st December 2026 (23:59 GMT+9)**.

3.2 **No-Deposit Bonus**:

- The amount of the NDB is USD 100
- The client must claim the NDB through the Client Zone within 14 days from the date of the invitation.
- The NDB can only be applied to live MT4 and MT5 trading accounts with zero equity and no open positions.
- The NDB is non-withdrawable and may be used as margin for trading purposes only.

3.3 **No-Deposit Bonus – Profit Unlock Conditions**:

- Profits generated from trading using the NDB are locked and become withdrawable only once BOTH of the following conditions are met:

- The client makes a minimum deposit of USD 135 into the same trading account where the NDB was granted; and
- The client trades at least 1.0 FX lot on that same account after the deposit has been made.

- Until both of the above conditions are satisfied, NDB profits are not withdrawable, and any withdrawal of funds will result in the removal of all remaining credit and any bonus-only profits.
- If a withdrawal of deposited funds or outgoing internal transfer (ITF) occurs before both unlock conditions are completed, all remaining credit will be removed immediately, and any bonus-only profits will be set to zero.
- If a withdrawal of deposited funds or ITF occurs after the unlock conditions are completed, credit will be reduced proportionally to the balance withdrawn. If all available funds are withdrawn, remaining credit will be set to zero.

3.4 **First Deposit Bonus**:

- The FDB is triggered automatically upon the client's first deposit into the same account where the NDB was granted.
- The bonus size will be 100% of the deposited amount, capped at a maximum of USD 645.
- The FDB applies only to the very first deposit. Subsequent deposits do not generate additional FDB credit.

Examples:

First Deposit USD 500→ USD 500 credit

First Deposit USD 1,000→ USD 645 credit

Second Deposit USD 200→ No additional credit

3.5 **Bonus Stabilizer & Stability Score & Calculated Volume:**

Bonus Stabilizer: The Bonus Stabilizer limits the portion of any Credit Bonus available for use as margin. The limitation is determined by the Client's Stability Score and corresponding Stability Level as set out below. The Bonus Stabilizer and Stability Score are calculated for each trading account separately.

Stability Score Formula: Stability Score = (Calculated Volume × 100,000) ÷ [(Balance + Available Credit) × Conversion Rate (USD)]

For example, if a client's trading account is in EUR, the EUR → USD rate is used.

- **Calculated Volume** = net lot size of the trade × Instrument Value Rate (see FAQ table)
- **Balance** = cash balance of the Client's account
- **Available Credit** = credit generated based on deposit including movements in balance operations such as ITFs and withdrawals. It is available for trading on an account before any adjustments via the Stability levels.
- **Conversion Rate (USD)** = the Company's prevailing conversion rate to USD.

Instrument Value Rates. Instrument Value Rates are used to determine the Calculated Volume. The instrument value rates are published in the FAQ section of the Company Website and may be updated from time to time.

Stability Levels and Credit %. Each account is assigned a Stability Level that corresponds to a percentage of the total Credit Bonus that remains usable as margin ("Credit %").

Recalculation Events. The Stability Score is recalculated, and the Credit % adjusted immediately upon: (i) the opening or closing of any market position; (ii) any deposit, withdrawal, ITF, a dividend charge, or any other balance operation; and (iii) any complex system operations, including adjustments resulting from ITFs, stop out events, or the application of NBP.

Level / Zone	Stability Score Range	Credit %
1	0 – 249	100%
2	250 – 349	50%
3	350 – 9,999	0%

Special Edge Case: If Balance + Credit < 0 or if Stability Score > 9,999, Stability Score is automatically set to 9,999, resulting in 0% Active Credit.

If you make an ITF, the credit is not automatically removed, however upon requesting an ITF from the source account, the credit moves proportionally and immediately alongside with the balance. If the remaining equity with credit on the source account ends up in negative value, NBP will be implemented and the negative amount will be offset against the available bonus credit.

Example 1 – deposit and Stability Score recalculation:

Deposit: USD 500 → USD 500 credit (100%)

Client opens positions on FX pair totaling 0.2 lots

Stability Score = (0.2 x 100,000) / ((500 + 500) * 1.0) = 20.00

Result: Stability Score is in Level / Zone 1, so Credit % stays on 500 (100 %).

Example 2 – deposit, ITF & Stability Score recalculation:

Deposit: USD 500 → USD 500 credit (100%)

Client opens position on FX pair totaling 0.2 lots

Stability Score = (0.2 x 100,000) / ((500 + 500) * 1.0) = 20.00 (*Stability Score is in Level / Zone 1, so Credit % stays on 500 (100 %)*)

Client makes transfer of USD 250 (50 % of balance) while holding the opened position of 0.2 lots

Stability Score* = (0.2 x 100,000) / ((250 + 250) * 1.0) = 40.00 (*Stability Score is in Level / Zone 1, so Credit % stays on 250 (100 %)*)

**Stability score on the trading account from which the ITF was made. It illustrates the Stability Score on the same trading account after the ITF is made*.

3.6 The Promotion may be combined with any other credit or cashback received on trading volume which AXIORY may offer from time to time. Cumulative credit granted shall not exceed USD 5,000. If the cumulative credit exceeds the USD 5,000 cap, such additional credit will be removed. In the event you enter another promotion offered by AXIORY and fulfill its terms, you will not be granted any more credit above the already accumulated cap. It is your responsibility to keep track of your cumulative credit amount and AXIORY shall not be liable for any inconvenience caused by exceeding the USD 5,000 cap.

3.7 The Promotion is available on a per-client basis (not on a per-account basis), regardless of the number of accounts held with AXIORY.

3.8 Any profit earned via trading with the Promotion can be kept and withdrawn in accordance with AXIORY's withdrawal of funds procedure, subject to the Profit Unlock Conditions set out in section 3.3 above. Withdrawal fees apply.

3.9 In the event the equity [the balance (closed positions) in the trading account plus the floating profit and loss from open positions] on the account reaches negative value ("equity without credit") the Promotion shall not be automatically removed as long as the total equity remains above zero. Please see examples below:

Example 1:
Equity = USD 100
Credit = USD 50
Equity without credit = 100 – 50 = USD 50

- In this example, the remaining equity on the trading account is USD 50, and the Promotion remains active.

Example 2:
Equity = USD 49
Credit = USD 50
Equity without credit = 49 – 50 = -USD 1

- In this example, although the equity without credit reached the negative value of -USD 1, the Promotion remains active, since total equity is still positive and the credit can be used as margin for trading.

3.10 You acknowledge that any indication or suspicion of any form of abuse, fraud, manipulation, in AXIORY's reasonable discretion, may lead to such account's disqualification from participation in the Promotion.

3.11 AXIORY will not be liable for any adverse effects where an account has open positions or floating profit/loss which results in the Promotion being removed for any reason.

4. GENERAL TERMS

4.1 AXIORY reserves the right to decline registration of any participant in the Promotion and/or disqualify any participant from the Promotion who violates or abuses these Terms or AXIORY's Terms of Business, and where necessary:
   (a) withhold, cancel and/or subtract credit from your account(s);
   (b) terminate your agreement with AXIORY and your access to AXIORY's services;
   (c) block your account(s) due to abusive behavior, including but not limited to:
      (i) when you, acting by yourself or with others, open trading position(s) which have the purpose or effect of extracting the credit provided and/or profits generated by the Promotion, without exposure to economic risk, including without limitation, loss of the Promotion or your capital (or capital of others);
      (ii) where you, acting by yourself or with others, hedge your positions, including without limitation, holding open position(s) in one direction, including by way of illustration only, single or correlated currencies, at given periods, internally (using other accounts held with AXIORY) or externally (using other trading accounts held with other brokers).

4.2 AXIORY reserves the right to cancel or amend the Promotion and these Terms without prior notice. Any changes to the Promotion will be notified to participants as soon as possible. Under no circumstances shall AXIORY be liable for any consequences of any alteration, amendment, suspension, cancelation or termination of the Promotion.

4.3 By participation in the Promotion, each participant declares and consents to the processing of his/her personal data collected and used by AXIORY to process them through automated and/or non-automated means. The personal data of the participants will be retained and used in accordance with AXIORY's Privacy Policy.

4.4 AXIORY cannot accept any responsibility for any damage, loss, injury or disappointment suffered by any participant entering the Promotion or as a result of accepting the Promotion.

4.5 AXIORY is not responsible for any problems or technical malfunction of any telephone network or lines, computer online systems, servers, or providers, computer equipment or software, failure of any email or entry to be received on account of technical problems or traffic congestion on the internet, telephone lines or at any website, or any combination thereof, including any injury or damage to participants or any other person's computer or mobile telephone related to or resulting from participation in the Promotion.

4.6 The present Terms will be governed by the laws of Belize and any disputes will be subject to the exclusive jurisdiction of Belize.

4.7 Notwithstanding the translated language of these Terms, the English wording shall be binding in the event of discrepancy between the two languages.

4.8 This Promotion is in no way sponsored, endorsed or administered by, or associated with Facebook, X, Instagram or any other Social Networks.
