

PIPS+

LOYALTY PROGRAMME

FXChoice
The trader's wise choice

1. The Pips+ Programme is a loyalty programme for FXChoice clients. This programme is a way for the most active traders to reduce their trading costs.
2. The Pips+ Programme applies to clients who use either PRO or Classic Accounts (on MT4 or MT5).
3. The programme only applies to instruments that incur commission – Forex and Metals. The programme does not cover Shares, Energies, Indices and Cryptos as they are commission-free instruments.
4. The programme applies to Master MAM accounts too – if a money manager meets the necessary volume requirements, the commission for that MAM account and all sub accounts connected to it will be reduced.
5. Clients who use any applicable account with FXChoice will be automatically enrolled in the Pips+ Programme. The Programme applies to all Clients free of charge.
6. The Programme's mechanism is based on trading volume, and deposit amounts – the more Clients trade and deposit under the Programme, the lower their trading costs will be.
7. The Programme consists of five tiers. The system automatically monitors and calculates the Client's volumes and allocates the Client to the relevant tier. If a client qualifies for an upgrade/ downgrade during the month, the Client will be upgraded/downgraded to the relevant tier according to point 7 below. If there are no changes in the Client's volume, the relevant tier will be applicable for 30 days, deducted the time needed for the Client to achieve the required volume; however, FXChoice provides a 14-day safety net, or grace period, where your tier cannot be downgraded, but can be upgraded – this safety net is provided assuming you do not withdraw funds during that period. The tiers, the required volumes and their conditions are published on FXChoice's website and in Backoffice.
8. The Pips+ Programme is updated once a day at 2am server time in the summer, and at 1am server time in the winter. If a client qualifies for a new tier, they will be automatically reallocated to their new tier with the new applicable trading conditions starting from the time of this reallocation.
9. Accepting the current terms and conditions shall mean accepting its entire content, including the tiers and their volume requirements and conditions. Accepting the current terms and conditions shall involve implicative actions of the Client, such as: accepting the FXChoice Client Agreement, depositing funds to the trading account and/or conducting any trading transaction. Upon acceptance of the current terms and conditions and other rules and regulations regarding the Pips+ Programme established by FXChoice, in any manner, the Client shall not be entitled to claim lack of knowledge or lack of understanding of these terms and conditions and the usage of the Pips+ Programme.
10. FXChoice reserves the right to unilaterally modify, change or terminate the Pips+ Programme entirely or for a specific Client, including the Programme tiers and the conditions applicable to them, or any of the terms and conditions included herein. Any modification, change or termination of the Programme could be conducted at any time and without the Client's consent and will take effect from its publication on the Company's website.
11. **RISK DISCLOSURE:** The Client is aware that the only purpose of the Pips+ Programme is to reduce the Client's trading costs. THE CLIENT IS AWARE THAT THEY HAVE 30 DAYS TO MEET THE VOLUME REQUIREMENTS OF THE PROGRAMME AND ANY PRECARIOUS OR IRRATIONAL DECISION TO ATTAIN A CERTAIN VOLUME IS AT A HIGH DEGREE OF RISK. THE CLIENT COULD LOSE THEIR INITIAL INVESTMENT.
