2026 TMGM 13th Trading Competition

Competition Overview

Registration Period: 02, November 2026, 00:00:00 –17, January 2027, 23:59:59 MT4/MT5 Time

Official Competition Period: 02, November 2026, 00:00:00 –31, January 2027, 23:59:59 MT4/MT5 Time

Participant Account Requirements: TMGM trading accounts from all registered countries and regions, except Australia, the United Kingdom. Cents Accounts are not eligible for participation and will not be counted in any calculations, or prize distribution for this competition.

Total Prize Pool: **$380,000 USD**

Competition Summary:

1. The competition is divided into two main categories: Standard Tier and Elite Tier. Each Tier operates independently with no impact on each other's rankings.
   - Standard Tier includes three groups: Masters, Crypto and Indices. Within the Masters group, participants can join either the Red, Blue, or Black team to compete internally; The Crypto group and the Indices group are not team-based.
   - Elite Tier includes one group: Ares.

Standard Tier	Requirement for deposit (USD)
Master (Red/Blue/Black)	**$500 USD - $19,999 USD**
Master (SEA Region*: Red/Blue/Black)	**$300USD-$19,999 USD**
Crypto group	**$500 USD - $19,999 USD**
Crypto (SEA Region*)	**$300USD-$19,999 USD**
Indices group	**$500 USD - $19,999 USD**
Indices (SEA Region*)	**$300USD-$19,999 USD**

**SEA region: Initial deposit requirements differ; actual groups/teams are the same.*

Elite Tier	Requirement for deposit (USD)
Ares	**$20,000+ USD**

2. Throughout the competition, TMGM will send monthly reminders to all participant accounts, emphasizing the requirements for net deposits, valid lots traded, and effective trading time by the competition's end. Accounts that do not meet these requirements will be excluded from the final rankings.
3. SEA region includes Thailand, Malaysia, Vietnam, Philippines, Indonesia, Laos, and Cambodia.

Reward Introduction

1. Rewards include money award, certificates, and trophies.
   a) **Money award**: divided into Standard Tier, Elite Tier, Monthly Special Single Award Competition and Weekly Special Single Award Competition.
   b) **Certificates**: Standard Tier - Top 10 for Master (Red) Team, Master (Blue) Team, Master (Black) Team, and Top 10 in the Crypto group, and Top 10 in the Indices group receive official Trading Competition certificates. Elite Tier - Top 10 in the Ares group, receive official Trading Competition certificates. Certificates will be awarded via email.
   c) **Trophies**: Standard Tier - Top 3 for Master (Red) Team, Master (Blue) Team, Master (Black) Team, and Top 3 participants in the Crypto group and Indices group receive specially designed trophies. Elite Tier - Top 3 in the Ares group, receive specially designed trophies.

Standard Tier

Group	**Master**			**Crypto**	**Indices**
Total Award Pool	**$78,000**			**$26,000**	**$26,000**
Team	**Red**	**Blue**	**Black**	-	-
1st Place	$10,000	$10,000	$10,000	$10,000	$10,000
2nd Place	$5,000	$5,000	$5,000	$5,000	$5,000

Weekly Special Single Award Competition

Award	Rules	Rewards
Weekly Highest Profit Rate Award	• Throughout the current Trading Competition period (02 November 2026 to 31 January 2027), the winners of the Highest Profit Rate and Highest Trading Volume awards from the previous week will be announced every Monday. • Each award will produce one winner in the Standard Tier and one in the Elite Tier; that is, one winner for the highest profit rate and one winner for the highest trading volume in the Standard Tier; and one winner for the highest profit rate and one winner for the highest trading volume in the Elite Tier, for a total of four winners each week.	Each weekly winner receives: $500 USD 【In case of a tie for first place, the prize money is split equally】
Weekly Highest Trading Volume Award		

*Weekly award announcement dates (13 weeks in total):

- November: 9 November 2026; 16 November 2026; 23 November 2026; 30 November 2026;

- December: 7 December 2026; 14 December 2026; 21 December 2026; 28 December 2026;
- January: 4 January 2027; 11 January 2027; 18 January 2027; 25 January 2027;
- February: 1 February 2027;

Monthly Special Single Award Competition

Award	Rules	Rewards
Monthly Highest Trading Volume Award for Designated Products	During the current Trading Competition period (2 November 2026 to 31 January 2027), monthly trading volume will be calculated for the designated products below, and winners will be announced after the end of each month: November 2026: Gold; December 2026: Cryptocurrencies; January 2027: Currency Pairs. Each month, 1 winning slot will be awarded to the participating account with the highest trading volume in the designated products in each of the Standard Tier and Elite Tier, giving a total of 2 winning slots per month.	Each monthly winning slot in each Tier carries a reward: $1,500 USD 【In the event of a tie for first place, that Tier’ s monthly reward will be shared equally among the tied winners】

* The Monthly Highest Trading Volume Award only counts orders in the designated products that are opened and closed by the participating account within the relevant monthly calculation period. Trading volume is calculated in Standard Lots in accordance with the conversion rules of this competition. Each month is calculated independently, with no accumulation across months. Trading volume in other products is excluded from that month’ s award assessment.

Calculation Periods:

- November: 2 November 2026 to 30 November 2026;
- December: 1 December 2026 to 31 December 2026;
- January: 1 January 2027 to 31 January 2027;

Conditions of Participation

Standard Tier

Group	Master			Crypto	Indices
Team (Choose one of the three)	**Red**	**Blue**	**Black**	**-**	**-**
Requirement for Deposit	$300/500 - $19,999 USD	$300/500 - $19,999 USD	$300/500 - $19,999 USD	$300/500 - $19,999 USD	$300/500 - $19,999 USD
Type of Account	Except Cents Accounts				
Valid trading period	≥10 trading days	≥10 trading days	≥10 trading days	≥10 trading days	≥10 trading days
Trading volume required	**1 Standard lot every 500 USD deposit** **SEA: 0.6 Standard lot every 300 USD deposit**	**1 Standard lot every 500 USD deposit** **SEA: 0.6 Standard lot every 300 USD deposit**	**1 Standard lot every 500 USD deposit** **SEA: 0.6 Standard lot every 300 USD deposit**	**1 Standard lot every 500 USD deposit** **SEA: 0.6 Standard lot every 300 USD deposit**	**1 Standard lot every 500 USD deposit** **SEA: 0.6 Standard lot every 300 USD deposit**

Special Rule for the Crypto and Indices Groups: At least 50% of the total trading volume must come from cryptocurrency or index products corresponding to the selected group. The trading volume calculation includes orders closed between successful registration and the end of the competition, as well as orders that remain open at the end of the competition.

- Masters Group Example 1: A participant deposits $500 USD, they must complete at least 1 Standard lot; similarly, with a $5,000 USD deposit, they must complete at least 10 Standard lots.
- Masters Group Example 2: Participants from SEA deposit $300 USD, they must complete at least 0.6 Standard lot; similarly, with a $3,000 USD deposit, they must complete at least 6 Standard lots.
- Crypto Group Example 1: A participant deposits $500 USD, they must complete at least 1 Standard lot; similarly, with a $5,000 USD deposit, they must complete at least 10 Standard lots.
- Crypto Group Example 2: Participants from SEA deposit $300 USD, they must complete at least 0.6 Standard lot; similarly, with a $3,000 USD deposit, they must complete at least 6 Standard lots.
- Indices Group Example 1: A participant deposits $500 USD, they must complete at least 1 Standard lot; similarly, with a $5,000 USD deposit, they must complete at least 10 Standard lots.
- Indices Group Example 2: Participants from SEA deposit $300 USD, they must complete at least 0.6 Standard lot; similarly, with a $3,000 USD deposit, they must complete at least 6 Standard lots.
- If a participant selects the Crypto Group or the Indices Group, the converted trading volume of products corresponding to the selected group must account for at least 50% of the participating account' s total converted trading volume. The calculation includes orders closed between successful registration and the end of the competition, as well as orders that remain open at the end of the competition. All trading volume is calculated in Standard Lots in accordance with the conversion rules of this competition.
- Trading volume calculations in all Tiers are based on the number of lots required for forex/Bullion. CFDs, crude oil, and cryptocurrencies are calculated at 1/10. Shares lots are not included.
- Cents Accounts are not eligible for participation and will not be counted in any calculations, or prize distribution for this competition.

Elite Tier

Group	Ares
Requirement for Deposit	$20,000+ USD
Type of Account	Except Cents Accounts
Valid trading period	≥10 trading days
Trading volume required	**1.5 Standard lots every 1000 USD deposit**

- Ares Group Example 1: A participant deposits $20,000 USD, they must complete at least 30 Standard lots; similarly, with a $50,000 USD deposit, they must complete at least 75 Standard lots.
- Trading volume calculations in all zones are based on the number of lots required for forex/Bullion. CFDs, crude oil, and cryptocurrencies are calculated at 1/10. Shares lots are not included.
- Cents Accounts are not eligible for participation and will not be counted in any calculations, or prize distribution for this competition.

Weekly Special Single Award Competition

<table>
<tr><th>Award</th><th>Rules</th><th>Rewards</th></tr>
<tr><td>Weekly Highest Profit Rate Award</td><td rowspan="2">Throughout the current Trading Competition period (02 November 2026 to 31 January 2027), the winners of the Highest Profit Rate and Highest Trading Volume awards from the previous week will be announced every Monday.
Each award will produce one winner in the Standard Tier and one in the Elite Tier; that is, one winner for the highest profit rate and one winner for the highest trading volume in the Standard Tier; and one winner for the highest profit rate and one winner for the highest trading volume in the Elite Tier, for a total of four winners each week.</td><td rowspan="2">Each weekly winner receives: $500 USD
【In case of a tie for first place, the prize money is split equally】</td></tr>
<tr><td>Weekly Highest Trading Volume Award</td></tr>
</table>

In relation to the Weekly Special Single Award Competition, each Participant (regardless of the number of portals or accounts used) can only win each type of award a maximum of two times throughout the competition period. A "Participant" is defined as any individual associated with the same ID card, phone number, email address, IP address or computer device. This definition does not restrict TMGM from using additional methods to verify participants identity. TMGM prohibits the use of proxies, and third-party identities for the purpose of circumventing these rules and reserves the right to refuse rewards and reallocate them to the next eligible participant if a Participant exceeds the allowed number of wins. Weekly, two winners per award type will be announced, totalling four winners. Over the competition period, each category of the Special Single Award — Weekly Highest Profit Rate and Weekly Highest Trading Volume — will recognize up to 52 winners.

- The deposit requirements for the Weekly Special Single Awards Competition are as follows: For the SEA region, the deposit for the week must be greater than or equal to 300 USD, and for other regions, the deposit for the week must be greater than or equal to 500 USD. At the final settlement on Sunday, the weekly initial equity plus deposit plus internal transfer amounts must meet the requirements in order to be eligible for the award.
- Highest Profit Rate Award: Calculates the order data opened and closed by the participating account from Monday (00:00:00) MT4/MT5 time to Sunday (23:59:59) MT4/MT5 time.
- Highest Trading Volume Award: Calculates all trading lots opened and closed by the participating account from Monday (00:00:00) MT4/MT5 time to Sunday (23:59:59) MT4/MT5 time.
- Calculation figures: Forex and Bullion will be calculated as 1 Standard lot. CFDs, crude oil, and cryptocurrencies lots are calculated at 1/10. Shares lots are not included.
- Special Reminder: Data for the Weekly Special Single Award Competition is compiled weekly and only includes data from that week; past data will not be recalculated. Please refer to the 【Award introduction】 for award announcement times.
- Single awards do not affect the final ranking of this competition.

Monthly Special Single Award Competition

Award	Rules	Rewards
Monthly Highest Trading Volume Award for Designated Products	During the current Trading Competition period (2 November 2026 to 31 January 2027), monthly trading volume will be calculated for the designated products below, and winners will be announced after the end of each month: November 2026: Gold; December 2026: Cryptocurrencies; January 2027: Currency Pairs. Each month, 1 winning slot will be awarded to the participating account with the highest trading volume in the designated products in each of the Standard Tier and Elite Tier, giving a total of 2 winning slots per month.	Each monthly winning slot in each Tier carries a reward: $1,500 USD 【In the event of a tie for first place, that Tier's monthly reward will be shared equally among the tied winners】

In relation to the Monthly Special Single Award Competition, TMGM will select winners separately in the Standard Tier and Elite Tier based on effective trading volume in each month's designated products. Each Tier has 1 winning slot per month, giving a total of 6 winning slots over the competition period. TMGM prohibits participants from using another person's identity or third-party identities to circumvent the competition rules and reserves the right to verify participants' identities and disqualify participants who breach the rules from receiving rewards.

Monthly Calculation Periods and Designated Products: Gold from 2 November 2026 to 30 November 2026; cryptocurrencies from 1 December 2026 to 31 December 2026; and currency pairs from 1 January 2027 to 31 January 2027. Each period runs from 00:00:00 on the start date to 23:59:59 on the end date, MT4/MT5 time.

Highest Trading Volume Award: Only trading volume from orders in the designated products that are opened and closed after successful registration and within the relevant monthly calculation period will be counted. Orders in other products and orders opened and closed in different months are excluded from that month's award assessment.

Trading Volume Conversion: Gold and currency pairs are counted at their original lot volume. Cryptocurrency trading volume is converted into Standard Lots at 1/10 of the original lot volume.

Special Reminder: Data for the Monthly Special Single Award Competition is calculated monthly and only includes qualifying data from the relevant month. Data from previous months will not be counted again. Winners will be announced after the end of the relevant monthly calculation period.

The Monthly Special Single Awards, Weekly Special Single Awards and final competition rankings are assessed separately and do not affect one another.

Competition Rules and Terms

1. Must be a valid TMGM trading account holder. Non-TMGM clients must register for an account before participating in the competition.

2. Competition nicknames must be letters and numbers, cannot include special characters.

3. The competition evaluates rewards based on effective trading lots and effective trading time.
   - Explanation of Effective Trading Lots:

   Effective trading lots are assessed based on deposit requirements and Standard lot sizes for each group. Please refer to the 【Conditions of Participation】and examples for minimum trading lot requirements.

   - Explanation of Effective Trading Time:

   Effective trading time requires maintaining positions for at least 10 trading days during the competition period or having trading activities on at least 10 trading days. 10 trading days of effective trading time meet the minimum requirement.

   ***Participants who do not meet the minimum requirements for valid trading volume and valid trading time will not be included in the final rankings.**

   1) Example 1: Client A participates in the Standard Tier Masters group during the competition period, deposits $500 USD, opens 1 Standard lot order, and holds the position for 10 trading days. In this case, the client A meets the minimum effective trading lots and effective trading time requirements, making this data eligible for final review.
   2) Example 2: Client B participates in the Elite Tier Ares group during the competition period, deposits $20,000 USD, opens 10 Standard lot orders, and holds the position for 10 trading days. Here, the client only meets the minimum effective trading time requirement and does not meet the minimum effective trading lots (requires at least 30 Standard lots for $20,000 USD), thus this data does not meet the criteria for final review.
   3) Example 3: Client C from the SEA region participates in the Standard Tier Masters group during the competition period. The SEA region requires 0.6 Standard lot for $300 USD. Client C deposits $600 USD and opens 1.2 Standard lot orders and holds the position for 10 trading days. In this case, client C meets the minimum effective

trading lots and effective trading time requirements, making this data eligible for final review.

4) Example 4: After successfully registering for the Crypto Group, Client D deposits $5,000. During the competition period, Client D trades 100 lots of cryptocurrency products, equivalent to 10 Standard Lots after applying the 1/10 conversion and holds the position for 10 trading days. Client D also trades 10 Standard Lots of forex products. Under the competition's calculation rules, Client D's total converted trading volume is 20 Standard Lots, of which cryptocurrency products account for 10 ÷ 20 × 100% = 50%. Therefore, Client D meets the minimum effective trading lot requirement, the minimum effective trading time requirement and the Crypto Group's minimum 50% trading volume ratio requirement. The trading volume above includes orders closed between successful registration and the end of the competition, as well as orders that remain open at the end of the competition.

4. Calculation Formula and Explanation

A. Formula:

$$\text{Rate of Return} = \frac{\text{Final Equity} - (\text{Initial Deposit} + \text{Accumulated Deposits} + \text{Transferred In} + \text{MISC})}{\text{Initial Deposit} + \text{Accumulated Deposits} + \text{Transferred In} + \text{MISC}}$$

$$\text{Final Equity} = \text{Initial Deposit} + \text{Accumulated Deposits} + \text{Transferred In} + \text{MISC} + \text{Profit} - \text{Withdrawal}$$

$$\text{Final Equity} = \text{Net worth of the account at the end of the competition (excluding bonuses).}$$

B. Formula Explanation:

1) Initial Deposit (Equity): The net worth of the account at the start of the official competition (on 02, November 2026, at 00:00:00 MT4/MT5 time), or the net worth at the time of successful registration after the competition has started. Excludes bonuses.
2) Accumulated Deposits: Deposits made after the start of the official competition (on 02, November 2026, at 00:00:00 MT4/MT5 time), or deposits made after successful registration during the competition.
3) Transferred In: Amount transferred internally during the official competition (on 02, November 2026, at 00:00:00 MT4/MT5 time), or internal transfers made after successful registration during the competition.
4) MISC: Total sum of all expenses excluding those generated by trading, including but not limited to cashback, dividends, SWAP interest, etc.

5) Rate of Return includes profit and loss of all TMGM account instruments.

C. Scenario Explanation:

1) Client A registered at registration period (on 02, November 2026, 00:00:00). At that time, the account net worth was $5,000 (original equity). On 02, November $5,000 was deposited without any trades. Therefore, the total Initial Deposit at the start of the competition (02 November) is $10,000. During the competition, there was an internal transfer of $2,000, other fees (MISC) amounted to $2,000, and a profit of $5,000 was achieved.

- Final Equity: (5000 original +5000 before competition deposit) 10000【initial deposit】+2000【transferred in】+2000【MISC】+5000【profit】=19000。
- Rate of Return:

$$\textbf{Rate of Return } 35.71\% = \frac{19000 - (10000 + 2000 + 2000)}{10000 + 2000 + 2000}$$

2) Client B registered after the official start of the competition (02, November 2026, 00:00:00). The actual registration date was 04 November, with an initial deposit of $5,000 (Initial Deposit), and an additional deposit of $5,500 was made on 08 November (Accumulated Deposits). During the competition, an internal transfer of $3,678 was made, $1,000 was withdrawn, and there were no MISC. A profit of $3,000 was achieved.

- Final Equity: 5000【initial deposit】+5500【Accumulated Deposits】+3678【transferred in】+3000【profit】-1000【withdrawal】=16178
- Rate of Return:

$$\textbf{Rate of Return } 14.11\% = \frac{16178 - (5000 + 5500 + 3678)}{5000 + 5500 + 3678}$$

5. Explanation of the Crypto Group Trading Volume Ratio Calculation:
Client C registers for the Standard Tier – Crypto Group on 2 November 2026. From successful registration to the end of the competition, Client C' s trading activity is as follows:

Cryptocurrency products: Closed orders during this period total 300 lots, equivalent to 30 Standard Lots. Orders remaining open at the end of the competition total 100 lots, equivalent to 10 Standard Lots. The cumulative trading volume of cryptocurrency products is 40 Standard Lots.

Currency pairs: Closed orders during this period total 25 lots, equivalent to 25 Standard Lots. Orders remaining open at the end of the competition total 15 lots, equivalent to 15 Standard Lots. The cumulative trading volume of currency pairs is 40 Standard Lots. Client C has no orders in other products.

- Cryptocurrency Trading Volume Ratio = Cumulative Standard Lots of Cryptocurrency Products ÷ Cumulative Standard Lots of All Products in the Account × 100%
- $= (30+10) \div (30+10+25+15) \times 100\%$
  $= 40 \div 80 \times 100\% = 50\%$

Therefore, Client C's cryptocurrency trading volume accounts for 50% of the account's total trading volume, meeting the minimum 50% requirement for the Standard Tier – Crypto Group.

6. A participant can use multiple trading accounts for the competition.
   1) Rate of Return will be calculated per individual account.
   2) However, this does not mean participants can engage in malicious hedging across multiple accounts to manipulate competition results. **If the participant's Hedging order volume ratio exceeds 50%, it will be deemed a violation of the fairness principle of the competition**. Upon detection of such behaviour, TMGM reserves the right to forfeit the participant's results. Monitoring of accounts across different participants will also be conducted, and results involving malicious hedging behaviour will be forfeited.

      Hedging order volume ratio = (Hedging order volume ÷ Total trading volume) × 100%

      When the proportion of hedging orders exceeds 50%, it is considered malicious hedging. Hedging order calculation explanation: The calculation scope includes all closed hedging orders from successful registration to the end of the competition, as well as all hedging orders currently being opened at the end of the competition. Total trading volume calculation explanation: The calculation scope includes all closed orders from successful registration to the end of the competition, as well as all orders currently being opened at the end of the competition.

7. During the competition period, participants can deposit/withdraw funds or make internal transfers. However, when calculating the rate of return, cumulative deposits and internal transfers will be considered as the principal amount.
    - Example: During the competition, a participant's account total deposits of $10,000. Before the end of the competition, the participant withdrew $3,000, leaving a remaining balance of $7,000. However, for rate of return calculation purposes, the principal amount considered will be $10,000, not $7,000 (refer to Calculation Formula and Explanation).

8. If a participant needs to change their competition group or team during the competition period after registration, they may apply for a change at any time. However, please note that once the group or team change is confirmed, all competition data will be reset.

9. Participants are allowed to use any trading technique or automated trading system that does not violate competition rules. Any arbitrage trading or other misuse of pricing and/or quoting will result in disqualification from the competition.

10. After the competition ends, TMGM will announce the list of winners within 15 business days and distribute the prizes within 30 business days. Winners of the money award must claim their rewards by clicking on the portal; trophy winners should fill in their personal information on the portal for trophy production. Weekly awards are calculated weekly, and monthly awards are calculated monthly. Clients who meet the criteria will have the rewards automatically credited to their trading accounts, without needing to apply. The rewards are typically credited within three business days.

11. Discovery of cheating will result in disqualification. The competition aims to provide a fair and just environment for all participants, and any behaviours that undermines the fairness and integrity of the entire competition will be deemed invalid.

12. Participants must consent to the disclosure and verification of their relevant trading information on the platform.

13. TMGM reserves the right of final interpretation.

14. TMGM retains the right to investigate any violations. In the event of such actions, TMGM reserves the right to deduct rewards from the 2026 13th Trading Competition.

15. TMGM reserves the right to modify or cancel terms and requirements related to this promotion without prior notice.

16. Leveraged products involve significant risks and may not be suitable for all investors. The trading competition does not guarantee any results, and participants must bear the risks of participation on their own.

17. Participants are responsible for reporting and paying taxes on any Monetary Awards received. The Company is not responsible for withholding taxes or advising on tax obligations. Participants should consult their own tax advisors.

18. If TMGM reasonably believes a participant has, or attempted to, whether acting alone or acting in concert, manipulate the competition, attempted any form of market abuse or market misconduct, or taken unfair advantage of TMGM, TMGM may verify the participant's compliance or eligibility at its sole discretion and reserves the right to take necessary action, including but not limited to disqualification, revocation of rewards, deduction of relevant amounts, or other actions deemed appropriate, without further notice to the participant. Please be informed that TMGM reserves the right to make the final interpretation to define the above abuse, misconduct, or unfair conduct and reserves the right to, at its sole discretion, conduct further investigation or verification as appropriate.

19. Any translation of these Terms and Conditions is provided for convenience only. In the event of any inconsistency or ambiguity between the English version and any translated version, the English version shall prevail to the extent permitted by applicable law.

FAQs

1. How do I register for the competition?

   A: Participants need to register for the TMGM Trading Competition through the official competition website, TMGM portal or official App. Alternatively, they can use the registration link provided in the competition promotional emails received through their registered email.

2. I already have a trading account with TMGM. Can I participate directly in the competition?

   A: Yes. If you already have a trading account with TMGM, you can directly register to participate in the competition. Cent accounts are not eligible to participate in this trading competition.

3. Does registration mean I am successfully participating in the competition?

   A: Once registration is completed, participants will receive an email notification confirming successful registration. After successful registration, participants must also deposit funds and meet the minimum required trading volume and trading days before the end of the competition.

4. Can I register first and then decide later whether to deposit funds to participate?

   A: Yes, you can. As long as participants ensure they complete registration before the registration period ends (17, January 2027, 23:59:59 MT4/MT5 time), and deposit funds and meet the minimum required trading volume and trading days before the end of the competition.

5. How do I claim my monetary rewards from the Trading Competition? How do I receive the special single award rewards?

   A: After the competition ends on 31 January 2027 at 23:59:59 MT4/MT5 time, TMGM will announce the list of winners within 15 business days and distribute the rewards within 30 business days. Winners of monetary rewards must claim their rewards through the Portal.

Weekly awards are calculated weekly, and monthly awards are calculated monthly. After the end of the relevant calculation period, the system will automatically review award eligibility and credit the rewards to qualifying participating trading accounts, without any separate application. Rewards are typically credited within 3 business days after the end of the relevant calculation period.

6. Am I allowed to withdraw funds during the competition?

   A: Yes, you are allowed. However, if withdrawals are made from the participating account during the competition, the calculation of the profit rate will be based on the principal amount defined as the total of account cumulative deposits and internal transfers, rather than the total after withdrawals.

7. Can I change my group or team during the competition?

   A: Yes, you can. If you need to change your group or team during the competition, please do so through the portal. You can apply to change at any time. However, please note that once the group or team change is confirmed, all competition data will be reset.

8. Can I use trading techniques during the competition?

   A: Yes, you may use any trading technique or automated trading system as long as it does not violate the competition rules. However, any arbitrage trading or abuse of pricing and/or quoting will result in disqualification from the competition.

9. I have multiple trading accounts. Can I participate in the competition with all of them? Are there any restrictions on multiple accounts in one group or one team?

   A: Yes, you can participate with multiple trading accounts. Each account needs to be registered separately, using different trading nicknames for each participating account. The profit rate for each account will be calculated separately. Different participating accounts can belong to the same or different groups or teams.

10. How can I check my ranking or results?

A: Participants can check their ranking on the TMGM Trading Competition official website.
