USD 30 No-Deposit Bonus Credit

TERMS & CONDITIONS | ARABIC MARKETS

The InnoMP USD 30 No-Deposit Bonus Credit Promotion (the **"Promotion"**) is offered by Innovative MP Holdings Limited (**"InnoMP"** or the **"Company"**) to eligible new clients. Participation constitutes the Client's acceptance of these Terms & Conditions together with the Company's Standard Terms of Business.

KEY RULE **Any Profit Withdrawal, or any Transfer Out, removes the remaining Bonus Credit in full. An Own-Funds Withdrawal does not.**

1 Promotion at a Glance

ITEM	TERM
Promotion Period	From 00:00 on 20 July 2026 to 23:59 on 30 September 2026 (Company server time).
Offer	USD 30 trading credit; no deposit required; usable as margin; non-withdrawable and non-transferable.
Activation	Issued automatically only upon successful KYC and account approval.
Eligible Clients	New clients aged 18 or above (or the applicable legal age), with no previous InnoMP account.
Eligible Markets	UAE, Saudi Arabia, Kuwait, Qatar, Oman, Bahrain, Jordan, Iraq, Egypt and Morocco, subject to applicable restrictions.
Bonus Account	One Standard MT5 Bonus Account per Client. Other, non-bonus accounts are unaffected by promotion-specific credit removal.
Instruments	Forex, Metals and Commodities only. Cryptocurrencies and Stock CFDs are excluded.
Minimum Holding Time	A position must be held for more than 3 minutes for its profit to qualify for withdrawal.
Profit Limit	Maximum cumulative Profit Withdrawal of USD 70 per Client.

The Promotion may be distributed through InnoMP direct channels, approved Introducing Brokers and Marketing-approved acquisition channels. No Bonus Credit will be issued after the Promotion Period unless InnoMP confirms an extension. Credit issued on or before 30 September 2026 remains governed by its individual removal and expiry rules after the Promotion Period ends. Identical terms apply uniformly across all Eligible Markets.

2 Defined Terms

InnoMP's account and transaction records are determinative of Client Deposits, cumulative withdrawals, Profit Withdrawals, transfers, remaining eligible profit and expiry. **"Standard Terms of Business"** comprises the Client Agreement together with all applicable account, trading, execution, privacy, risk and complaints policies.

TERM	MEANING
Bonus Account	The single Standard MT5 account to which the Bonus Credit is issued.
Bonus Credit	The USD 30 recorded as credit. It is not cash, is excluded from Account Balance, and cannot be withdrawn or transferred.
Account Balance	The cash balance, excluding Bonus Credit and any unrealised profit or loss on open positions.
Client Deposits	Cumulative cleared funds deposited into the Bonus Account.
Own-Funds Withdrawal	A withdrawal that does not cause cumulative withdrawals to exceed cumulative Client Deposits.
Profit Withdrawal	The portion of a withdrawal that causes cumulative withdrawals to exceed cumulative Client Deposits. Where no deposit has been made, any withdrawal is a Profit Withdrawal.
Transfer Out	Any transfer from the Bonus Account to another account, wallet or internal destination, including an account held in the Client's own name.
Trading Activity	The opening of a new position in the Bonus Account.

3 Eligibility and Use

The Client must complete KYC, account approval and all jurisdictional and compliance checks before the Bonus Credit is issued. Registration alone confers no entitlement. InnoMP may treat connected identities, devices, IP addresses, payment methods or other linkage indicators as a single Client or a coordinated group.

The Bonus Credit is usable only within the Bonus Account. The Client may deposit funds after issuance; depositing neither removes the Bonus Credit nor alters the USD 70 cumulative Profit Withdrawal limit. The opening or closing of a position does not, of itself, remove the credit. Profit arising from positions held for three minutes or less, or from any prohibited activity, may be cancelled, adjusted or excluded from withdrawal.

A subsequent promotion becomes available only once this Bonus Credit has been fully consumed, removed or expired. Any other non-bonus account held or subsequently opened by the Client is unaffected by these promotion-specific rules, save where InnoMP acts separately under the Standard Terms of Business in response to fraud, abuse, AML/CTF concerns or another breach.

4 Withdrawal and Transfer Rules

The Bonus Credit itself cannot be withdrawn. Withdrawals are processed solely against available Account Balance. InnoMP allocates cumulative withdrawals against cumulative Client Deposits first, and classifies only the excess as a Profit Withdrawal. Any Profit Withdrawal greater than zero removes the remaining Bonus Credit in full. Any Transfer Out likewise removes it in full, even where the transferred amount originated from Client Deposits.

TREATMENT OF THE BONUS CREDIT BY EVENT

EVENT	TREATMENT OF BONUS CREDIT	USD 70 PROFIT LIMIT
Deposit into Bonus Account	Retained	Continues to apply to profit only
Own-Funds Withdrawal	Retained, provided no profit component is withdrawn	Does not apply
Profit Withdrawal above USD 0	Remaining credit removed in full	Profit component counts toward the cumulative limit
Transfer Out of any amount	Remaining credit removed in full	Not relevant; the transfer rule applies regardless of source
Open or close a position	Retained, absent another removal event	Eligible profit remains subject to the limit
Withdrawal rejected — only credit remains	Retained	No withdrawal has occurred

5 Removal and Expiry Logic

Once the Client opens a first position, Cold Expiry ceases to apply and Warm Expiry takes effect. Any removal or expiry affects only the remaining Bonus Credit within the Bonus Account. It may reduce equity and available margin, and may cause liquidation or stop-out; the Client remains responsible at all times for margin and for open positions.

PATH / EVENT	TRIGGER	OUTCOME
Cold Expiry	No position is opened during the first 90	Credit expires automatically on

PATH / EVENT	TRIGGER	OUTCOME
	calendar days after credit issuance.	day 91.
Warm Expiry	After at least one position has been opened, no new position is opened for 60 consecutive calendar days.	Credit expires automatically on day 61 of inactivity.
New Trading Activity	A new position is opened before Warm Expiry takes effect.	The 60-day inactivity clock restarts, subject to abuse controls.
Profit Withdrawal	Any withdrawal contains a profit component greater than USD 0.	Remaining credit is removed in full.
Transfer Out	Any amount is transferred out of the Bonus Account.	Remaining credit is removed in full.
Fully Consumed	Trading losses exhaust the Bonus Credit in full.	Promotion completed; no replacement credit is issued.
Ineligibility or Abuse	Duplicate, ineligible or prohibited participation is identified.	Credit may be removed and related profit reviewed, cancelled or recovered.

6 Application Examples

EXAMPLE 1 No Deposit and No Withdrawable Balance

Scenario. The Client has made no deposit. Trading losses reduce the unused Bonus Credit to USD 10, and the Account Balance is zero.

Treatment. There are no withdrawable funds, and a withdrawal request will be rejected. The remaining Bonus Credit stays available until it is consumed, removed or expired.

EXAMPLE 2 No Deposit and Eligible Trading Profit

Scenario. The Client has made no deposit and generates an eligible Account Balance through trading.

Treatment. Any withdrawal is a Profit Withdrawal. Cumulative Profit Withdrawals are capped at USD 70, and the remaining Bonus Credit is removed once a Profit Withdrawal is processed.

EXAMPLE 3 Deposit Followed by a Mixed Withdrawal

Scenario. The Client deposits USD 100. The Account Balance subsequently reaches USD 150, and the Client withdraws USD 130.

Treatment. USD 100 is an Own-Funds Withdrawal and USD 30 is a Profit Withdrawal. The USD 30 counts toward the cumulative profit limit, and the remaining Bonus Credit is removed.

EXAMPLE 4 Deposit Followed by a Loss

Scenario. The Client deposits USD 100. After trading losses, the Account Balance stands at USD 80, and the Client withdraws USD 80.

Treatment. The withdrawal is an Own-Funds Withdrawal only. It is not subject to the USD 70 profit limit, and the Bonus Credit is retained.

EXAMPLE 5 Internal Transfer

Scenario. The Client transfers any amount from the Bonus Account to another account held in the Client's own name.

Treatment. This constitutes a Transfer Out. The remaining Bonus Credit is removed in full, irrespective of the source of the transferred funds.

7 Prohibited Conduct and Disqualification

Where fraud, misuse, manipulation or any attempt to obtain an unintended promotional benefit is identified, InnoMP may disqualify the Client, remove the Bonus Credit, cancel or recover profit attributable to the prohibited conduct, restrict promotion access, suspend the account, or take any other action permitted under the Standard Terms of Business. Prohibited conduct includes:

- false, misleading or inconsistent identity, residence or KYC information;
- multiple or linked Bonus Accounts, identities, devices, IP addresses or payment methods;
- coordinated opposite trades, same-IP groups, pooled-account activity, or multi-account or cross-broker arbitrage;
- latency arbitrage, high-frequency abuse, malicious hedging or quote-flow exploitation;
- trades with a round-turn duration of three minutes or less;
- the use of VPN, proxy or other means to circumvent eligibility or jurisdictional restrictions; and
- any other conduct contrary to the purpose of the Promotion or to the Standard Terms of Business.

Client Deposits will not be forfeited solely on account of a Promotion breach. Withdrawals remain subject to the Company's normal KYC, AML/CTF, payment, security and withdrawal procedures. Profit arising from violating trades may be cancelled or recovered to the extent permitted by these Terms & Conditions, the Standard Terms of Business and applicable law.

8 Trading Risk and General Terms

CFDs and leveraged foreign-exchange products carry a high degree of risk and may result in the loss of all deposited funds. The Bonus Credit neither protects against loss nor guarantees profit. Its removal or expiry may immediately reduce equity, available margin or margin level. The Client remains responsible for all trading and risk-management decisions.

These Terms & Conditions supplement the Standard Terms of Business and govern this Promotion alone. InnoMP may verify eligibility, Trading Activity and withdrawal classification, and may delay processing pending KYC, AML/CTF, fraud, abuse, security or other required checks. InnoMP may amend, suspend or terminate the Promotion where reasonably required by law, regulation, operational necessity, fraud risk, market conditions or events beyond its control, with notice where applicable.

Personal data is processed under the Company's Privacy Policy. In the event of translation, the English version prevails. InnoMP's records prevail in determining eligibility, credit, deposits, withdrawals, transfers, expiry and abuse, subject to applicable law and to the Client's rights under the Company's complaints procedure.
